Dear John

Re: Shopfitting

It is with great pleasure that I write this letter of recommendation.

Before embarking on the the development of a new General Practice premises, I was somewhat naive regarding the way forward. Through your colleague Dennis Brown and yourself the concept was initiated.

The process has been smooth and seamless. The task - huge, but made easy with your guidance and attention to detail. Small details have been rectified promptly and graciously.

On behalf of our team, I thank you, Glenys and Dennis for your patience, professionalism and conduct throughout this period in our professional lives.

Kind regards,

Dr Rodney Willett
Practice Owner and Principal
